Remote work and
international relocation

PROFILE

Software developer and senior consultant focused on corporate applications, data and automation. Uses Python, SQL, web technologies and Power Platform to connect systems and build solutions for operations, risk and compliance.

Open to remote work and international relocation.

WORK EXPERIENCE

Senior Consultant

TIM Brasil / Apr 2026 - Present

- Develop Power Apps solutions and Power Automate workflows for Compliance. Improve ticketing with reassignment, history tracking and profile-based access controls.

Projects and Operations Specialist

Rede D'Or / Jan 2025 - Feb 2026

- Built dashboards, data models, applications and workflows with Power Platform. Integrated SQL Server, APIs and Business Central; managed Dev/Prod environments.

Project Analyst (Intermediate / Senior)

Golden Cross / Nov 2022 - Jan 2025

Intermediate until Dec 2023; Senior from Jan 2024.

- Developed and optimized T-SQL, ETL and data migration processes. Built reports and solutions with Power BI, Python and Django.

BI Analyst / Project Analyst

Light / Jan 2019 - Nov 2022

Junior BI until Aug 2020; Intermediate Project Analyst from Sep 2020.

- Built automated reports and KPI analyses with Power BI, SQL Server, Excel and Power Query; structured and analysed datasets.

EDUCATION

Estácio / Brazil

Business Administration · Bachelor's degree (Bacharelado)

Mathematics · Licenciatura (teacher education), completed

MBA in Data Science & AI · Studies on hold, not completed

PROJECTS

Arizon CRM · Completed CRM for customer and conversation management, now commercially available.

Canal de Ética · Structuring a Risk & Compliance solution using Power Apps and Dataverse.
